6. Once your credentials are verified, you will receive an activation code. This activation code is sent to your phone of record (via text message if your cell number is validated or a message on your home phone if that number was validated). Sending the final activation code to a Confirmed Phone number keeps your identity safe. We want to make sure you and only you are able to write and send prescriptions in your name. Once you have the activation code, enter it and click "Validate Code". If you did not receive an activation code, click "Re-Send Code".

Your id and credentials have been verified.

Please enter your activation code to activate your e-Rx account:

Note: This activation code was sent to your phone of record (via text message if your cell number was validated or a message on your home phone if that number was validated). Sending the final activation code to a Confirmed Phone number keeps your identity safe. We want to make sure you and only you are able to write and send prescriptions in your name.

If you did not receive your activation code please click here to have a technical support agent re-send the activation code.

7. When the activation code is validated, your account will be activated and you will be ready to start e-Prescribing. Click "Finish" to complete ID Proofing.

Congratulations! Your account has been activated and you are ready to e-Prescribe!
